

# CHARLES . W . ANGOYE

Front end Engineer

## About Me

A dedicated Software Engineering student (TGPA: 4.10) with proven proficiency in Python, Linux, and database fundamentals. As a disciplined, self-directed Full-Time Forex Trader specializing exclusively in XAU/USD, I have developed deep analytical expertise in a single, volatile market. I am now leveraging this focus and my technical foundation to build a skill set for a career in Full-Stack Development.
